

IN THE DRAWINGS

In drawing figures 4 and 6, please insert the reference numerals (12, 24), to indicate the cooling passages (12) and (24) as described in page 5 line 15 of the specification.

One copy of the amended formal drawings is enclosed herewith for the Examiner's approval.

REMARKS

The Official Action dated 14 December 2004 has been carefully considered, along with cited references, applicable sections of the Patent Act, Patent Rules, the Manual of Patent Examining Procedure and relevant decisional law.

The drawings are objected to under 37 CFR § 1.83(a) because they fail to show cooling passages (12) and (24) as described in the specification.

In response, the drawing figures 4 and 6 have been amended to show the cooling passages (12) and (24). One copy of the amended formal drawings is enclosed herewith for the Examiner's approval.

The abstract and the disclosure of the specification are objected to because it includes terminology which is so different from that which is generally accepted in the art to which this invention pertains.

The abstract is objected to because it is incomplete.

In response, the abstract and the disclosure of the specification have been amended according to the Examiner's suggestions.

Claims 1-10 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

However, the Examiner has kindly indicated that claims 1-10 would be allowable if written or amended to overcome the rejection(s) under 35 U.S.C. § 112, second paragraph, set forth in this Office Action.

In response, claims 1-10 which are indicated to be allowable

have been amended to overcome the rejection under 35 U.S.C. § 112, second paragraph, and have been amended according to the Examiner's suggestions.

Accordingly, claims 1-10 would appear to be allowable, and early issuance of a Notice of Allowance is accordingly most respectfully solicited.

Courtesy and cooperation of Examiner HOANG are appreciated.

respectfully submitted,

By: 

CHARLES E. BAXLEY
